Medical Emergency Rescue Hall
IVD/Laboratory/Clinic Hall
Medical Consumables Hall

Concurrent Exhibition:
REHABILITATION
PERSONAL HEALTH
Background
CMEF · Beijing will invite leading companies and key players across the industry to build a one-stop platform for medical institutions and manufacturers to communicate and share up-to-date information.

Medical Diagnosis Hall: The hall is dedicated to the purposes of displaying the latest IVD innovations and offering academic forums to target audience. It aims to construct an all-in-one service platform to benefit the entire industry and encourage the innovation of IVD technologies and the integration of clinical practices.

Medical Emergency Rescue Hall: The exhibition will be categorized into areas including mobile hospital equipment, first-aid equipment, emergency department equipment, emergency transportation vehicles, mobile field hospitals and military–civilian integration based first aid, etc. High-profile forums will be held concurrently around topics such as “Status Quo and Future Trends of China’s Emergency Medical Rescue Technology and Equipment Industry”.

Medical Consumables Hall: A host of industry-leading experts and scholars will be invited to offer insights on topics such as “Procurement of High Valuable Consumables with Specified Quantity”, “Medical Treatment Alliance and Price Negotiation”, in a manner to provide a panoramic interpretation of the development trend of the industry.

Source of Visitor
Medical institutions: 7000+ medical institutions from Beijing, Tianjin and Hebei will be invited, of which there are 500+ public hospitals, 900+ private hospitals and 6000+ clinics.
